LinkedIn | GitHub | LeetCode

Professional Summary

Computer Science undergraduate with strong foundations in Java, DSA, Machine Learning, and Full Stack Web Development. Enthusiastic about solving the **Data Structures & Algorithms (DSA)** problems and continuously improving coding skills through regular practice

Technical Skills

- Languages: Java, C, C++, Python
- Web: HTML, CSS, React.js
- Databases: MySQL, MongoDB
- Machine Learning: TensorFlow, Scikit-learn, Pandas, NumPy
- Version Control: Git, GitHub
- Tools: VS Code, Jupyter Notebook, Postman

Projects

Virtual Mouse Using Computer Vision

- Developed a virtual mouse using OpenCV and MediaPipe.
- Implemented hand gesture recognition for cursor control.

LLM-Prop: Predicting Properties of Crystalline Materials

- Built an AI-based material property prediction project.

SocioSphere – Social Media Platform

- Developed a MERN-based social media application.

Education

B.Tech in Computer Science and Engineering
Keshav Memorial Institute of Technology (KMIT)
Expected Graduation: 2028
CGPA: 8.75/10

Certifications

- GeeksforGeeks Hackathon Participation
- Web Development - freeCodeCamp
- KMIT Project School - LLM-Prop
- KMIT Project School - SocioSphere
